

## How to Refrigerators

---

### Routine maintenance

- Remove all food from the fridge and place in temporary refrigerated storage (if available).
- Remove shelving and loose parts and move to sink. Wash, rinse and sanitise. Let air dry.
- Apply approved detergent to interior of refrigerator. Brush and wash fridge walls, floor, ceiling and both sides of shelving.
- Rinse well with clean water and wipe dry.
- Spray with ToyGuard® Surface Sanitiser and allow to air dry.
- Apply approved detergent to exterior surfaces. Clean, rinse and wipe dry.
- Replace food ensuring it is all dated correctly and that there is no risk of cross contamination.
